

WORKING PLAN

17/03/2020 – The end of the confinement

GROUP: 4th course of ESO

SUBJECT: INFORMATION AND COMMUNICATION TECHNOLOGIES

The students of this subject have worked throughout the year by email, drive and their blogs. So, we still keep in touch in the same way. However, the working plan will be carried out through the platform "**Google classroom**". This method will be the main one to deliver the exercises.

I sent you the access to "**4º ESO ICTs**" on Google classroom last 17/03/2020. Additionally, any doubt or clarification can be consulted by email (**esther.tecno.eso@gmail.com**).
